

# KIRF: I know number bonds to 5

Number bonds show us how numbers join together. They are very important for addition and subtraction. This half term, the children will be learning number bonds that make 5; they should be able to recall these independently.

<u>Concrete:</u>	<u>What can this look like?</u>	<u>Abstract:</u>
	<p><u>Pictorial:</u></p> 	<p>2 and 3 make 5</p> <p><math>2 + 3 = 5</math></p> <p><math>5 - 2 = 3</math></p>

**Questions to ask at home**

What do we need to **add** to 4 to make 5? **1**

If I have 1, how **many more** do I need to get to 5? **4**

What is the **difference** between 5 and 3? **2**

**Key vocabulary**

What is 3 **add** 2?

What is 4 **plus** 1?

What is 5 **take away** 4?

What is 1 **less than** 5?

**Things to try**

**Everyday Objects-** Gather together 5 objects and separate them in as many different ways as possible, write the calculation to match each one.

**Bubble numbers-** Write the numbers 1-5 on large pieces of paper, shout out a number 1-6 and then ask your child to blow bubbles at the right number to make 5.

**Bunny ears-** Decide on a number to make. Put your hands on your head as 'ears' and challenge your child to make 5, e.g. show two fingers on one hand and 3 on the other.
